

Rotary Club of Hollywood Donates Truck to CEC

The Rotary Club of Hollywood donated approximately \$23,000 for the purchase of a commercial truck with heavy-duty lift gate, along with insurance, tax, registration and gas for a month for the Community Enhancement Collaboration (CEC). The truck was presented to CEC Founder/President Nadine McCrea and volunteers at the Washington Park Service Center, 5648 Wiley Street in Hollywood.

For more than 16 years, CEC has been on the frontlines distributing free food, clothing and counseling services to the homeless, disadvantaged, youth, elderly and families in need. Most recently, they have been a vital and reliable source of nutritious food and social service assistance for those negatively impacted by the COVID-19 pandemic. The addition of this new commercial truck with heavy-duty lift gate will help CEC to continue to fulfill its mission. The truck will be used for collecting donations says McCrea. "I am so thankful to the Rotary Club of Hollywood for this donation. The truck will be a big asset when picking up donated goods, year-round including food, clothing, books, toys, diapers, small appliances, school supplies, furniture, personal hygiene products, and more."

The Rotary Club of Hollywood and CEC are just two of the local nonprofits organizations officially recognized by the City of Hollywood City Commission.
